How To Order

- Select the model number from the sizing chart. Then add a prefix of RE for the Reserve door or D for the Décor door, add a color code, and

the suffix of CMD for the ClearView Mesh Door. Example: The model number REL3322 would designate a Reserve door in Copper in model number 3322 with a ClearView Mesh Door.

- Please note: The opening widths in the above chart are based upon using standard mounting hardware for installation. Contact the factory for a quote for door styles other than the Reserve and Décor which are featured here.
