

Norwegian

The Norwegian offers the lowest profile frame from a premium door manufacturer anywhere.

We originally designed this door for Norwegian builders whose demands were to maximize viewing area while offering the highest quality fireplace door possible. Over the years, thousands of new homes in Europe have received this door and we are finally offering this design stateside.

Standard Finish –	Textured Black
Door Style –	Only available in CV2 tracked bi-fold doors
Standard Glass –	¼" tempered bronze, clear or grey glass with lifetime warranty

Quite possibly the world's thinnest Custom Zero Clearance door frame offered by a premium door manufacturer, the Norwegian boasts the largest glass to frame ratio offered in the industry. The thin handcrafted steel frame offers rigidity without compromising viewing area, allowing for the largest glass we can offer for the opening.

The frame is powder coated in a durable textured black finish and the channel handles come standard in black but can be upgraded to Stainless Steel or Antique Brass. Offered in a CV2-tracked bi-fold door with glass options of Bronze, Clear and Grey as standard.

Upgrade your home's look without compromising any of the grand look and luster of your fireplace.
