Trim Spacers

Thermo-Rite is known for many firsts in the premium fireplace door industry and we proudly announce another, the Norwegian-Z. This is the first ever 2 Day Ship Zero Clearance fireplace enclosure and another great addition to our 2 Day Ship door program.

Standard Finish –	Textured Black
Door Style –	Only Available in FS2: trackless full-swing doors
Standard Glass –	¼" tempered Bronze glass lifetime warranty

Base unit widths are 36, 38 and 42" wide and offer bronze tinted glass with a durable textured black powder coat finish (base unit refers to the door and frame with no spacers). For openings taller than the base height we incorporate a system of trim spacers, either a single or pair, that allow the door to fit a wide variety of openings and some of the industry's most popular models past and present.

SIZING CHART FOR THE NORWEGIAN-Z				
Finish Codes	Model No.	Door Style	Glass	Overall Frame Sizes
Textured Black	Norwegian-Z	FS2: Bi-fold Full-Swing Trackless Doors	Bronze	Widths 36", 38", & 42"

Below are the height dimensions for each of the Trim Spacers. To know which spacers will come with your door take the width and suffix from the door model and apply it below. Example: an NZ42-S4 would receive the S4 spacer kit from the 42" column below. Which includes 2 spacers 1 9/16" in height to be mounted to the top & bottom of the frame.

SIZING CHART FOR TRIM SPACERS					
36" WIDTHS			42" WIDTHS		
		Qty			Qty
S1	1/2"	1	S1	1/2"	1
S2	9/16" Ea.	2	S2	15/32" Ea.	2
S3	1 9/16" Ea.	2	S3	1 1/32" Ea.	2
			S4	1 9/16" Ea.	2
